Hang in against Covid -19

A big THANK YOU to you who contribute to reducing the risk of the spread of Covid -19 so that the Malmö Academy of Music can continue to have education at the Campus.

There are warnings that the number of infected people is increasing in the south of Sweden, among other places. Therefore, it is important that we help each other to remind and persevere.

It would be very sad if we get the virus at the Academy of Music and would be forced to close down our campus again.

So remember the three most important measures to reduce the risk of spread of Covid -19;

1. DISTANCE - Keep the distance.
   Do not move tables and chairs together, avoid queuing at the microwave ovens or copying machines, and do not sit close together by a computer or a mobile phone! Open windows and ventilate, but do not forget to close the window when you leave the room.

2. HYGIENE - Wash and spray your hands, cough in the armpit and avoid poking your face. If you see that wet wipes, hand alcohol bottles or containers with hand alcohol are empty, notify the reception or the Helpdesk.

3. AT HOME - Do as much as possible at a distance/remotely and stay at home at the slightest sign that you are feeling unwell (fever, sore throat, runny nose or cough).
   If you, from any student or staff member, receive a reminder to keep your distance, keep in mind that it is in the best interest of everyone!
